

UAN-32 Urea Ammonium Nitrate Solution

GUARANTEED ANALYSIS: 32-0-0

7.75% Nitrate Nitrogen

16.50% Urea Nitrogen

Derived from Ammonium Nitrate and Urea.

Warning: This product contains a chemical known to the State of California to cause cancer, birth defects or other reprodutive harm.Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986, requires notification of potential exposure to substances identified by the State of California as causing cancer, birth defects or other reproductive harm.

Information regarding the contents and levels of metals in this product is available on the Internet at http://www.regulatory-info-ir.com

PHYSICAL CHARACTERISTICS

Specific Gravity @ 68°F:	1.327
Weight (lbs./gal.) @ 68°F:	11.06
Total Nitrogen (lbs./gal.):	
	Ammonic Nitrogen 0.86
	Nitrate Nitrogen 0.86
	Urea Nitrogen1.82
Salting Out Temperature:	32°F
Solution pH:	6.8
Free Ammonia:	0.01%

CONSTRUCTION OF STORAGE & TRANSFER EQUIPMENT

1. Mild steel, stainless steel, aluminum and certain fiberglass materials are suitable. Copper and alloys containing copper (brass) should not be used.

COMPATIBILITY

- 1. Compatible with ammonium phosphate solutions such as 10-34-0, 11-37-0, 9-30-0, etc.
- 2. Comptaible with potash solutions and combinations of potash and ammonium phosphate solutions.
- Comptabile with many herbicides. NOTE: Consult pesticide label or manufacturer before mixing UAN-32 with pesticide chemicals.

USES

- A nonpressure solution—is well adapted for a wide range of application practices. Direct application in preplant plowdown programs, injecting or banding in the soil, or applied through various irrigation systems—sprinkler, drip, flood or furrow.
- Is the preferred source of nitrogen in liquid blending plants and in combination with herbicides for "weed and feed" programs.

ADVANTAGES

- 1. Provides both fast acting and long lasting plant food from its three forms of nitrogen. Quick response from nitrate, longer lasting from ammonic and sustained feeding from the water soluble organic nitrogen in urea.
- 2. Enjoys great compatibility with other fertilizers and many chemicals. Makes possible two or more jobs in one trip over the field. Saves time, labor and money.
- 3. Is easy to store, handle and calibrate for accurate application in the field.
- 4. Is safe-being a nonpressure neutral solution, eliminates safety hazards associated with corrosive materials and high pressure systems.

SAFETY

Not generally considered toxic. Avoid contact with eyes and skin. In case of contact, thoroughly flush eyes and skin with water. 32-0-0 is not regulated by DOT.

PRECAUTIONS

- 1. Do NOT spray UAN-32 full strength on crops other than pastures.
- 2. Do NOT mix with agua ammonia as the blend is very corrosive.
